

Cumberland Valley Christian School Virtual Education Student Expectations

As a student enrolled in CVCS virtual education classes, it is essential to adhere to the following expectations to ensure academic success and a smooth learning experience:

1. **Completion of Portfolio Assessments:** It is expected that you complete all portfolio assessments each week in a timely manner. These assessments are crucial for tracking your progress and understanding of the material.
2. **Communication with Facilitators:** Should you have any questions, issues, or require an extension for assignments, it is your responsibility to communicate promptly with your facilitators, email is the easiest way to do this. Clear and proactive communication ensures that you receive the necessary support to succeed in your coursework.
3. **Technical Issue Reporting:** If you encounter any technical issues while accessing the VLN platform, please inform the Virtual Education Director immediately at dsanders@cvcdblazers.com. Prompt reporting allows for swift resolution, minimizing disruptions to your learning experience.
4. **Textbook Care and Return:** Take good care of your textbooks throughout the course. Ensure they remain in good condition and return them on the last day of school or when the course concludes. Proper care of instructional materials benefits both current and future students.

Please note that the grading platform that CVCS uses is Renweb/Facts, all your grades will be shown there. Some facilitators will also grade in the VLN portal, but some will not.

By adhering to these expectations, you contribute to a positive and productive virtual learning environment for yourself and your peers. Should you have any further questions regarding these expectations or need additional guidance, do not hesitate to reach out to your facilitators or the Virtual Education Director.
